SITE PLAN REVIEW APPLICATION

Project Location:		
Address: Block Lot(s) Zoning District(s) Size of Project Site		
Applicant:		
Name:		
Address:		
Owner of Record:		
Architect/Engineer (if other than applicant):		
Name:Title:		
Address: Phone:		
Proposed Project:		
□ New Buildingsf □ Additionsf □ Retaining Wall □ Sports Court □ Driveway		
□ Deck □ Septic/Drywell □ Other − Describe:		
Will Project Require Additional Permits: Fill Permit		
Detailed Description of Proposed Project: Starting Date:		
Wetlands on site Yes No Does the project site contain underground oils tanks? Yes No If yes, indicate location of tank(s) on the site plan, and plans for removal, if any. [Type here]		

ading activities and grade changes that will occur on the project site:
posed project result in the creation or modification of slopes with a gradient of 10% or
e proposed on-site sewage disposal system, or the proposed modifications to the existing cate location of both the existing system and proposed system on the site plan.
w soil erosion and stormwater runoff will be controlled during construction.
SITE PLAN REVIEW APPLICATION <u>CHECKLIST</u> F THE FOLLOWING MUST BE SUBMITTED FOR APPLICATION TO BE COMPLETE: showing all existing structures, prepared, signed, and sealed by a New York State licensed or, and dated within six (6) months from the date the application is filed with the Village.
the proposed project, drawn at an engineering scale of not less than one inch equals 20 feet, realed by a NYS licensed architect or engineer, and which shall include the following A title block located in the lower right-hand corner of the site plan shall include the name and address of the applicant and record owner of the property, the property's Section, Block and Lot designation on the Nassau County Land and Tax Map, and the title of the project. The date, north point arrow and written and graphic scale. A date block of the site plan adjacent to the title block containing the date of preparation and dates of all revisions. A description of information to define precisely the boundaries of the property, all distances shall be in feet and tenths of a foot. The locations, names and existing widths of adjacent streets and curb lines. The locations and owners of all adjoining lands as shown on the latest tax records.

restrictions, easements or exceptions affecting the site, a notation to the effect shall be

indicated on the site plan map.

NATURAL FEATURES:
9 Existing and proposed contours according to Nassau County datum at intervals not to exceed two feet. Existing contours are to be indicated by solid lines; proposed contours are to be indicated by dashed lines. Identify all slopelands of 10% or greater.
10 Location of all existing significant natural features, such as boulders, rock outcrops, watercourses, depressions, ponds, marshes, and other wetlands or tidal areas, whether or not
officially mapped. 11 Delineation of Flood Plain Zone as shown on the Flood Insurance Rate Map prepared by the Federal Emergency Management Agency and adopted by the Village of
Roslyn Harbor. 12 Delineation of Coastal Erosion Hazard Area, if the property is located within the Village designated Coastal Management Zone.
13 Delineation of tidal and freshwater wetland areas as designated by the New York State Department of Environmental Conservation.
14 Location of all existing trees, identified by type or species and size, bearing a trunk circumference of eighteen (18") inches or greater measured at a point four (4') feet above
original ground level. 15. Approximate Boundaries of any areas subject to flooding or storm water overflows.
EXISTING STRUCTURES AND UTILITIES: 16 Location of uses and footprints of existing structures drawn to scale, on the lot and for all properties located immediately adjacent to the subject property. The plan shall contain a notation indicating any structures that are to be removed. 17 Street addresses and driveway locations for all property located immediately adjacent to, and across the street from the subject property. 18 All distances, as measured along the right-of-way lines of existing streets abutting the property, to the nearest intersection with any other street. 19 Location plans, illustrations, height/set back ratio requirements and elevations of all proposed structures. 20 Height / setback ratio in both a graphic and numeric format for all four sides of the property. 21 Location of all existing and proposed surfaces, other than landscaping, located on the property. 22 The locations, dimensions, grades and flow direction of existing culverts and water lines as well as other underground and aboveground utilities within and adjacent to the property. 23 Other existing development, including fences, landscaping and screening.
24 Location of all means of vehicular access to and from the site onto public or private streets, showing the size and location of existing and proposed driveways, curb cuts, and sidewalks, if any.
PROPOSED DEVELOPMENT:
25 Location of proposed buildings or structural improvements. 26 Location and design of any off-street parking areas, loading, or outdoor storage
areas. 27 Existing elevations along the edge of the roadway pavement contiguous to the site. 28 Location of all proposed water lines, valves and hydrants and all sewer lines or alternative means of water supply or sewage disposal and treatment

8. ____ A chart containing all allowable, existing and proposed zoning calculations.

29	1 ne proposed location, direction of filumination, power and time of proposed
	outdoor lighting.
30	The proposed location of mechanical equipment, including air conditioner units,
	pool maintenance equipment and generators.
31	Structural elevation calculations for retaining walls.
32	2 A drainage plan which demonstrates the containment of surface water runoff on the
	site during and after construction.
33	Location of all proposed storm drainage structures, soil erosion and sediment
	control devices and utility facilities, including electric, water, telephone and cable television,
	which are located within the property lines.
34	The proposed stormwater drainage plan showing location of all inlet pipes, swales,
	berms and other drainage facilities, including roof leaders. Indicate proposed runoff
	calculations. Note surface water flow patterns, boundaries of any areas subject to flooding or
	stormwater overflows, and any anticipated flood hazard or changes planned in the surface
	water drainage pattern.
25	Existing and proposed spot elevations at all critical locations, e.g. Drainage inlets,
33	
26	high and low points, foundation walls, top, and bottom of retaining walls, etc.
	5 Disturbance Limit Line showing all areas of the site to remain undisturbed.
3/	An approval box for the Village Engineer signature and corresponding date.
	ing Plan, if required: andscaping plan, drawn at a scale of not less than one inch equals 20 feet, matching the scale of
	an, which contains the following information:
	Outline of all existing and proposed structures, driveways, parking areas, walkways,
	and impervious surfaces to be located on the property.
2.	
	outcrops, watercourses, depressions, ponds, marshes, and other wetland or tidal areas whether
	or not officially mapped.
3.	· · ·
	trunk circumference of eighteen (18") inches or greater measured at any point between
	ground level and a height of four (4') feet above the base of the trunk. All existing trees are to
	be tagged with individual, pre-numbered metal tags that are to be securely fastened to each
	tree. The plan must include an inventory of all of the trees on the site which shall list the tree
	*
4	diameter, species, and indicate whether the tree is proposed for removal or is to be preserved.
4.	The location of all trees, shrubs, and/or any vegetation, identified by type or species
_	which are to be removed.
5.	The leastion of all trace showles and/on any vice atotion identified by type on angeles
	The location of all trees, shrubs, and/or any vegetation, identified by type or species
6.	which are to be preserved.
	· · ·
	which are to be preserved.
	which are to be preserved. The location of all trees, shrubs, and/or any other vegetation, identified by size,
	which are to be preserved. The location of all trees, shrubs, and/or any other vegetation, identified by size, height, and type of species, that are to be provided. Each tree to be provided as a replacement tree under the conditions required by a Village Tree Removal permit, should be assigned an

Letter of Explanation: If all plans/items (1-37) are not included/submitted, a letter from a NYS licensed professional must be provided detailing the reason for the omission.

Any Other Information deemed by Site Plan Review necessary included but not limited to:

• Stormwater Pollution Prevention Plan (SWPPP).

If one (1) acre or more of land is to be disturbed, a Stormwater Pollution Prevention Plan (SWPPP) consistent with the requirements of Chapter 226 is required for site plan approval. The SWPPP shall meet the performance and design criteria and standards in Chapter 226. The approved site plan shall be consistent with the provisions of this Chapter 226.

- **Photographs of existing structures** of the property and surrounding landscaping and screening. Two (2) sets only.
- Floor Plans
- Landscape Plans
- **Certificate of Title and deed**(s) for the existing lots.
- Letter from the Water District regarding availability of water to the site (for new structures only).
- Copy of the original building permit application that was reviewed by the Building Department.
- **Identification of all required permits or approvals** from the Village or any other governmental body, and a record of application for and status of any such permits or approvals.
- All appropriate permit fees, charges, and deposits required by the Village Code.

The Building Department may waive any of the above requirements it determines to be unnecessary for the appropriate review of a particular application but such waiver shall not be binding upon the Planning Board.

<u>APPLICATION FEES:</u> A non-refundable Fee of \$1,750 (per lot). A Trust Deposit* may be required.

* Trust Deposit is for costs and expenses associated with the filing of an application. The applicant obligated to pay all costs and expenses incurred by the Village in connection with their application. includes, but is not limited to attorney's fees, engineering services, plan review, publication of notic court reporter, if necessary.
